

# Wax Mannequin - Saxon

The Zunior Music Label proudly presents *Saxon*, the brand new album from Hamilton, Ontario's **Wax Mannequin**.

A tireless and talented iconoclast, Wax Mannequin is a maniacal force of nature and *Saxon*, his fifth full-length album, is his crowning achievement.

Following up the critical acclaim of 2007's *Orchard &*

*Ire*, Wax returns to his gritty psych-folk roots on *Saxon*, all the while giving new appreciation for the versatility of a classical guitar. Recorded with **Andy Magoffin** at the House of Miracles and backed up by Black Blood (**Mark Raymond** on bass and **Aidan Campbell** on percussion) *Saxon* is a testament to the complex songwriting and evocative lyrics upon which Wax Mannequin has built his much-lauded career.

## Press Quotes:

"By training his inner animal enough to let it run free with his muse, Wax Mannequin has given birth to a brilliant bestial gem of audio mythology." - Exclaim!

"I could start off with a catch-all like 'shockingly good songwriter' or 'eclectic artist, and while that would partly describe Hamilton's Wax Mannequin, it would do the man a great disservice to leave it at that." - Now Magazine
